Renting equipment is a decision that you make based on a number of factors. But know this: We never forget that our job is to provide you with quality equipment, on time and wherever you need it, so that you can perform your job as efficiently and economically as possible.

**Preparation Fee**
Covers our one-time expense of packing, handling and especially checking the instrument after rental to repair normal wear & tear and minor cleaning of the equipment. This allows us to have NO minimum rental period and to keep our daily rates as low as possible.

**Rental Days**
Rental begins the day we place the instrument in shipping and ends the day we receive the instrument in good condition (less normal wear and tear). The rent is based on a 7 day week (includes weekends). We charge based on days not hours.

**Freight Charges**
The renter covers freight and insurance charges; you or your company will need to provide a valid shipping account number.

**Shipping Options**
We recommend Federal Express, but we can ship using any carrier. For heavier shipments (over 150 lbs.) we can provide names of local freight forwarders that usually ship freight for less.

**International**
We are happy to work with you on your international projects. A 15% surcharge will be made on rentals outside of the USA.

**Terms**
Invoices are due upon receipt unless other arrangements have been made.

**New Customers**
To start an account with us, you will need to fill out our equipment rental agreement and customer information sheet. You can find them on our web site at www.expins.com.

**Monthly Rates**
Monthly rates are available for customers whose accounts are current.

---

**What’s New?**

**The ESS-MINI seismic source** is a new light weight and compact design for an electrically operated portable seismic energy source. Weighing only 150 lbs, it fights well above its weight-class.

**The 350 HS** is a state-of-the-art digital antenna designed to work seamlessly with GSSI’s SIR 4000 control unit. It produces superior resolution and depth.

**The Scorpion P-wave sparker sound source** can produce upwards of 50 times more energy than conventional borehole sound sources.

**The Tromino 3G** is a highly portable, three-component seismograph for passive-wave or shallow refraction surveys.

---

**Dependability**

**Affordability**

**Availability**

---

Renting equipment is a decision that you make based on a number of factors. But know this: We never forget that our job is to provide you with quality equipment, on time and wherever you need it, so that you can perform your job as efficiently and economically as possible.

## Electromagnetic Instruments
- **Geonics EM-31 DL**: $90.00/day, $150.00/week
- **Geonics EM-31 MK2**: $105.00/day, $150.00/week
- **Geonics EM-31 SHORT**: $90.00/day, $150.00/week
- **Geonics EM-34-3 DL**: $120.00/day, $195.00/week
- **Geonics EM-34-3 XL DL**: $125.00/day, $195.00/week
- **Geonics EM-38 RT**: $50.00/day, $95.00/week
- **Geonics EM-38 B RT**: $65.00/day, $95.00/week
- **Geonics EM-38 MK2**: $80.00/day, $95.00/week
- **White DFX**

### EM61 GPS Antenna Mount
- **Geometrics MetalMapper 2X2**: $740.00/$500.00
- **Complete EM 2-6 unit Array package**: $call
- **Geometrics EM-61 MK2 A metal locator**: $100.00/day, $150.00/week
- **White DFX-300 Metal Locator**: $12.00/day, $50.00/week
- **Geometrics MetalMapper 2X2**: $740.00/$500.00

### Accessories
- **Legos or Archer2 Logger for EM-31, 34, 38**: $20.00/day, $45.00/week
- **EM61 GPS Antenna Mount**: $4.00/day, $10.00
- **TrackMaker Software (31,38,61)**: $8.00/day
- **TrackMaker Multi 61 for Windows XP**: $30.00/day

## Environmental Instruments
- **MiniRAE 2000 PID**: $30.00/day, $55.00/week
- **Krack Interface probe KIP**: $90.00/day, $150.00/week
- **MiniRAE 2000 PID**: $105.00/day, $150.00/week
- **Geonics EM-34-3 DL**: $120.00/day, $195.00/week
- **EM61 GPS Antenna Mount**: $150.00/week
- **Geometrics EM-38 B RT**: $65.00/day, $95.00/week

### Hydrologic Instruments
- **Delta Epsilon digital well logger**: $152.00/day, $195.00/week
- **Omega Single Point Resistance, SP and 16” Normal Resistivity Probe**: $25.00/day, $45.00/week
- **Hemisphere Eclipse w/ Omnistar**: $45.00/day, $50.00/week

### Geomagnetic Instruments
- **Bosich borehole gradiometer**: $48.00/day, $65.00/week
- **DataBridge SDR logger for GPR**: $15.00/day, $30.00
- **DeltaBridge SDR logger for GPR**: $15.00/day, $30.00

### Resistivity Instruments
- **SuperSting R8**: $210.00/day, $100.00/week
- **SuperSting R8 WIFI w/ kit**: $230.00/day, $100.00/week
- **SuperSting Power Supply**: $30.00/day, $10.00
- **Switch cable w/ 56 takeouts (4 cables)**: $65.00/day, $150.00/week

### Resistivity Software
- **MinRes Ultra (2.5 Hz)**: $37.00/day, $65.00
- **Minifiles Ultradip**: $45.00/day, $65.00

## EM Systems - Submeter
- **Hemisphere Eclipse w/ Omnistar**: $45.00/day, $50.00/week
- **Juniper Sys GeoDe**: $35.00/day, $50.00/week
- **Archer Hemisphere**: $35.00/day, $50.00/week
- **DataBridge SDR logger for GPR**: $15.00/day, $30.00

## Gravity Meters
- **LaCoste & Romberg Model G Alod1000**: $235.00/day, $250.00/week
- **LaCoste & Romberg Model G Land meter**: $135.00/day, $250.00/week

## Resistivity Instruments
- **SuperSting R8 - 8 channel**: $210.00/day, $100.00/week
- **SuperSting R8 WIFI w/ kit**: $230.00/day, $100.00/week
- **SuperSting Power Supply**: $30.00/day, $10.00
- **Switch cable w/ 56 takeouts (4 cables)**: $65.00/day, $150.00/week

## Resistivity Software
- **MinRes Ultra (2.5 Hz)**: $37.00/day, $65.00
- **Minifiles Ultradip**: $45.00/day, $65.00

## Ground Penetrating Radar
- **GSSI SIR-3000 Control Unit**: $110.00/day, $125.00/week
- **GSSI SIR-4000 Control Unit**: $120.00/day, $150.00/week
- **GSSI SIR3000 UtilityScan system**: $180.00/day, $205.00/week
- **GSSI UtilityScan RLT w/350HS**: $180.00/day, $150.00/week
- **GSSI UtilityScan 800/300 MHz DF system**: $200.00/day, $200.00/week
- **StructureScan Mini 2D @1600 MHz**: $105.00/day, $100.00/week
- **StructureScan Mini 2D HR @2700 MHz**: $120.00/day, $100.00/week
- **StructureScan Mini XT (3DHR)**: $135.00/day, $100.00/week

## Seismic Instruments
- **Geometrics SmartSies S12**: $85.00/day, $135.00/week
- **Geometrics ES3000 12 channel**: $65.00/day, $100.00/week
- **Geometrics Geode 24**: $120.00/day, $150.00/week
- **MiniMate Plus Vibration Monitor**: $30.00/day, $50.00/week
- **ESS Mini AWD Seismic Source**: $95.00/day, $100.00/week
- **PEG40 Accelerated Weight Drop Source**: $120.00/day, $100.00/week
- **ESS 500 Turbo Seismic Source**: $400.00/day, $250.00/week

## GEOINSTRUMENTS
- **MOHO Tromino 3G**: $60.00/day, $50.00/week
- **Radio Trigger Link for seismic sources**: $23.00/day, $35.00

# Notes

- **GeoPipes with 12 Muelle takeouts:**
  - 10-foot spacing: $8.00/day, $45.00/week
  - 20-foot spacing: $9.00/day, $45.00/week
  - 30-foot spacing: $15.00/day, $65.00/week
  - 60/48/24 Rollalong box: $25.00/day, $25.00
  - Cable w/ 24 take-outs w/ 10’ spacing: $25.00/day, $75.00
  - Cable w/ 24 take-outs w/ 20’ spacing: $27.00/day, $75.00
  - Hydrophone 12 @ 1M w/ 200’ lead: $37.00/day, $75.00
  - Bay Cable 24 @ 10’ w/ 250’ lead: $68.00/day, $75.00
  - Land Streamers (24@5’ w/ 4.5Hz Vert): $78.00/day, $100.00

## Geophones
- **Geospace 4.5 Hz vertical**
  - 10-foot spacing: $15.00/day, $45.00/week
  - Sensor 4.5 Hz horizontal: $15.00/day, $45.00/week
- **Geospace 8 Hz**
  - 10-foot spacing: $11.00/day, $45.00/week
  - 40-foot spacing: $15.00/day, $45.00/week
  - 100-foot spacing: $30.00/day, $45.00/week
- **Geostuff BHG-2 Triax geophones**
  - 15.00/day, $35.00/week
  - Geostuff BHG-3 Triaxial w/compass: $65.00/day, $150.00/week
- **Scorpion Pweave Sparkker Source**
  - 100.00/day, $75.00/week

## Software
- **Seismager**: Call

## Utility Locating
- **LineTrac Utility Locator for GPR antenna**: $10.00/day, $20.00/week
- **Radio Detection large "mole"**: $9.00/day, $15.00/week
- **Radio Detection RDI8000 pipe & cable locator**: $42.00/day, $65.00/week
- **Radio Detection RD7100 pipe & cable locator**: $37.00/day, $65.00/week
- **Metrotech Vixus Loc-5000**: $37.00/day, $65.00/week
- **White DFX-300 Metal Locator**: $15.00/day, $55.00/week

## Vibration Monitoring
- **MicroMatje Vibration Monitor**: $30.00/day, $50.00/week
