This covers our one-time expense of packing, handling, testing, repairing normal wear & tear and minor cleaning of the equipment. This allows us to have no minimum rental period and to keep our daily rates as low as possible.

Rental Days

Rental begins the day we place the instrument in shipping and ends the day we receive the instrument in good condition (less normal wear & tear). Regular business days for return of instruments are Monday through Friday. Prices are FOB Austin.

Freight Charges

The renter covers freight charges; therefore the customer will need to provide us with an active shipping account number (such as Federal Express or UPS) or a credit card number.

Invoices are due upon receipt unless other arrangements have been made. A finance charge will be added to delinquent accounts.

Monthly Rates

Monthly Rates are available for customers whose accounts are current.
